LAMRIN TECH SKILLS UNIVERSITY PUNJAB

University School of Computing

Technical Event: Code Crush (Beginner–Intermediate)

Coordinator: Mr Rahul Kumar, Ms Pooja Rani

Objective

To improve basic programming skills and logical thinking of students by solving simple to intermediate coding problems within a fixed time.

How to Implement

- Prepare 4–5 coding questions (easy to medium level).
- Allow students to use C/C++/Java/Python.
- Provide problem statements to all participants at the same time.
- Give 60–90 minutes to solve the questions.
- Collect code submissions at the end.
- Evaluate solutions based on correctness of output.
- Announce winners.

Rules

1. Individual participation.
2. Only allowed programming languages can be used.
3. No use of internet or pre-written code.
4. All solutions must be submitted within the given time.
5. Plagiarism will lead to disqualification.
6. Judges' decision will be final.
