

WEB WEAVERS

A Brief Introduction: Web Weavers is an interactive and creative activity that focuses on web design and development. In this event, participants work in teams to design and create a functional web page or a simple web application within a limited time frame. The challenge encourages participants to apply their knowledge of HTML, CSS, and JavaScript while promoting teamwork, creativity, and problem-solving skills.

Key Highlights: The main objective of Web Weavers is to encourage participants to collaborate in designing and developing a functional web page or application, applying their knowledge of web technologies within a creative and time-constrained environment.

Outcomes:

- Participants enhance their skills in HTML, CSS, and JavaScript by applying them in a practical project.
- The event fosters teamwork and communication, as participants collaborate to bring their design ideas to life.

Eligibility Criteria: 17-23 Years

Duration: 1 hour

Categorization:

Group Competition: 3-4 members can participate

Rules & Regulations:

1. Teams should include individuals with design, coding, and content creation skills.
2. Create a functional web page or simple web application based on a given theme.
3. The theme will be announced at the start of the event.
4. Teams can use HTML, CSS, JavaScript, and any familiar libraries or frameworks.
5. Final projects must be submitted as a hosted URL or a zipped file with all necessary files
6. A brief project documentation or presentation outlining features, design choices, and technologies must also be submitted

Date & Timing: 13 Feb 2025, 10:00 AM-11:30 AM

Venue: IBM Lab No 5
